

Join us for

STEM Saturdays @eureka!

Join us for hands-on STEM exploration at eureka! Our STEM classes engage students in problem solving, design thinking, technology literacy and more. Different classes are offered each month and new classes will be added throughout the year.

NOVEMBER

Codevember Class: Using the Edison Robot, your child will practice programming and then write their own code to control the robot! (\$38)

Dates: 5th or 13th 10:00-11:00 am

Grades: 1-6

DECEMBER

Slime Time: Explore slime and learn about other polymers! We will discover what ingredients make the best slime! (\$38)

Dates: 11th 10:00-11:00 am

Grades: 1-6

CODE Camp: This three-day class will meet for two hours each day. (10am-12:00pm) Children will design and write code for their own Edison Robot! Class cost includes the robot so they can continue sharpen their coding skills at home! (\$275)

Dates: 28/29/30 10:00 am- 12:00 pm

Grades: 4-7

JANUARY

Animal Adaptations: Ever wonder how animals survive the harsh winter? Get ready to think like your favorite animal and see if you have the stuff to survive!

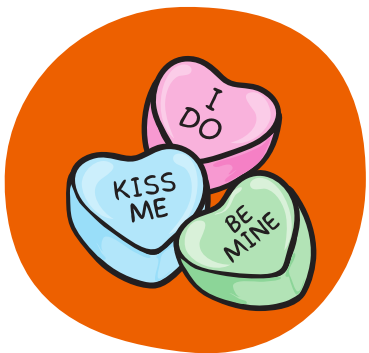

Date: 8th 9:00 am -10:00 am

Grades: 1-3

Phenomenal Forces: Why don't snowboards have wheels? Why do things slow down? Build your own simple machines and explore the wonders of our physical world.

Date: 29th 9:30-10:30 am

Grades: 4-6

FEBRUARY

Sweet Science: Did you know that you can learn a lot about science through candy? Enjoy some sweet treats and explore solubility, mass, density and more! Science never tasted so sweet!

Date: 12th or 26th 10:00-11:00 am.

Grades: 1-6
